A lifetime mortgage is a long term commitment which could limit the choices available to your clients in future. However, circumstances can change, and the Lump Sum Lifetime Mortgage aims to accommodate these changes.

Example 1: Unexpected cash windfall

Your client receives an unexpected windfall, and would like to use these funds to reduce their lifetime mortgage balance.

The **Flexible Repayment Option** allows up to 10% of the initial loan amount to be repaid each year without attracting **any early repayment charge**.

Your client decides if or when they wish to make a repayment.

Example 2: Downsizing

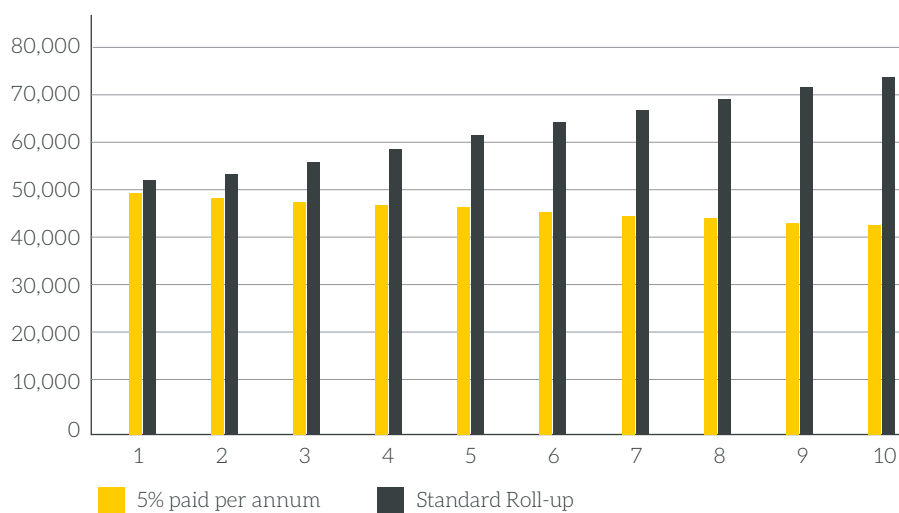

Your client may not plan to downsize, but this could change in the future if:

- They need to move to be closer to their family
- Their existing property becomes difficult to manage in later life.

No early repayment charge will apply if your client sells their home and moves out permanently, even if the loan is repaid in full.

The value of the Flexible Repayment Option

Using the Flexible Repayment Option, the example below shows the effect on the total amount owing of repaying £2,500 (5% of the initial loan amount) annually after the first year of taking out a £50,000 lifetime mortgage (based on rate of 4.02% monthly)

By repaying 5% of the initial loan amount every year, the total amount owed after 10 years will be **£43,308**. This is **£31,382** lower than if no repayments were made. Further details are available on our website at www.hodgelifetime.co.uk/frocalculator.
